## Bed Bug Management 101

**NEW!** This one-day training includes biology, identification, legal issues, inspection techniques including visual and canine, and effective treatment strategies. **\$150.**

## Termite Management School

▶ Would you like a more *efficient sales staff*? Would you like your office personnel to be able to *answer questions* about termites? If so, then **Termite Basics** is for you!

▶ Do you have new technicians that with some experience could be *great technicians*? Would you like to have *hands-on experience* evaluating 50+ construction types for termite management? If so, then you need the **Foundations of Termite Management**.

▶ Want to learn about *borate treatments, baits, and how termiticides work*, as well as how certified operators *get in trouble*? Come to the **Master of Termite Management** class. We also discuss beetles and wood-decay fungi.

**NEW!** **Expert of Termite Management** is the final level for the Termite/WDO category. Topics cover building code issues, OSHA requirements, alternative treatments, and how to respond to special circumstances such as mold.

▶ Get up to speed with the new form in **WDO Inspections and Form 13645**. *Interactive training* covers legal issues and more.

## General Household Pest Management School

▶ Do you have technicians who need *cross-training on GHP*? Does your crew need training on inspection, monitoring, baiting and evaluation, then **GHP Basics** will fill the bill.

▶ Do you need to learn more *in-depth pest control concepts* on subjects including cockroaches and asthma, rodent control, flies, ants, and IPM? Then **GHP Foundations** is what you need.

**NEW!** **Master of General Pest Management** takes GHP Management to the next level. Match wits with bedbugs, fleas, ticks, stinging insects, and head lice.

**Registration form** — PLEASE FAX, MAIL OR E-MAIL THIS FORM
